### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Changed the title from "Digital Weighing Device" to --Scale that Automatically Increases the Number of Displayed Digits as the Measured Weight Approaches the Target Weight--.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: none of the references cited teach automatically increasing the number of displayed digits as the measured weight approaches target weight. Some of the references teaches the opposite; that is, automatically switching from fine to course resolution as the measured weight increases above a certain limit – since the prior art is teaching away from the claimed invention, it is not suggested by the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
